4. Definitions

Designated Delegate means an individual appointed by the Chief Executive Officer to make decisions on matters affecting the Local Government's participation in the provision of emergency support activities.

Desktop exercise means a discussion that may focus on a pre-set area on which a prepared scenario is used to illustrate the deployment of resources and anticipated actions taken in response to a specific incident.

Disaster means a serious disruption of the functioning of a community or a society at any scale due to hazardous events interacting with conditions of exposure, vulnerability and capacity, leading to one or more of the following: human, material, economic and environmental losses and impacts. The effect of the disaster can be immediate and localised, but is often widespread and could last for a long period of time. The effect may test or exceed the capacity of a community or society to cope using its own resources, and therefore may require assistance from external sources, which could include neighbouring jurisdictions, or those at the national or international levels¹.

Evacuation Centre means a facility that provides affected people with basic human needs including accommodation, food and water.

LG Support Agency means the Local Government(s) offering and/or providing aid, support or assistance under the provisions of this memorandum.

LG Support Recipient means the Local Government(s) seeking and/or receiving aid, support or assistance under the provisions of this memorandum.

Recovery activities means the provision of support for disaster-affected communities in the restoration or improvement of livelihoods and health, as well economic, physical, social, cultural and environmental assets and systems of disaster-affected community or society, aligning with the principles of sustainable development and 'build forward better' to avoid or reduce future disaster risk¹.
